

Fight Hunger 5K

Show Some Team Spirit!

Organizing a team to take part in the Fight Hunger 5K is a great way to extend the fun and the fundraising. Teams can be from a workplace, a school, a place of worship, or other organization.

How to get started...

Pick a name for your team – make it descriptive, but fun!

Go to <https://www.firstgiving.com/GardenShare/2017-fight-hunger-5k> and click on “register”

Create your own personal First Giving account (or log in if you already have one)

Choose “I want to create my own team”

Input the team name you chose, the organization the team represents and customize as you would like with your story and photos. Be sure to include your team’s fundraising goal.

Next you’ll be asked to customize your own personal fundraising page. Just like with the team page, you can add your own text or photos. Please consider making your own donation at this time – it shows everyone that you are committed!

And now you can use the team page link to invite others to join your team.

Of course, you can use your own personal page link to ask friends, families, coworkers, etc. to make a donation in support of your efforts!

Teams can be organized using the paper forms as well. Just get your group together, hand out the forms, and decide on a team name.

Remember, there is a prize for the team that raises the most!
